WELCOME

Welcome to Equitech Solutions, provider of quality, long lasting, aluminum showjump and stable solutions for equestrians.

Equitech Solutions showjumps are made from quality aluminum and are perfect for both show and schooling rings. Jumps are durable and sturdy, will not rot or rust, and are UV resistant and easy to clean.

Matching wood poles wrapped in HDPE (high density polyethylene), which is known for its' high strength-to-density ratio, are available, as are a full line of ring supplies such as cups, fill, jump numbers, dressage rings and letters.

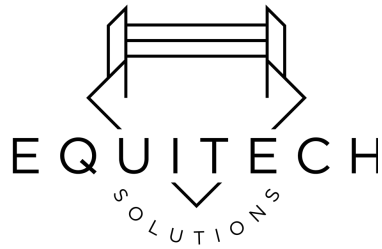

Permanent and Portable Stall Options can be customized for any project.

Thank-you for considering Equitech Solutions, we look forward to working with you to provide equestrian solutions for your facility!

Please contact us anytime.

RING SIDE ALUMINUM SHOWJUMPS

TS20

All showjumps are made from high quality powder coated aluminum.

Sturdy composite design accents are used accessorize the jumps and fill.

The result is a lightweight yet very durable quality product that will not rot, rust, or fade over time. Standards store neatly together.

Aluminum keyhole tracks are affixed to every jump standard.

SIMPLE BASICS

Quality, colorful, eye catching "Simple Basics" aluminum jumps are certainly not basic at all!

These jumps are perfect for showrings and schooling rings, with a 170cm standard height (other heights available).

Quality aluminum standards are custom powder coated to the color of your choice. Logos and custom color can be embedded in the composite; designs are UV resistant and will not fade or "flake" away.
